

E-LEARNING – THE ISTQB® eCTFL

**Become a certified tester in a quick and easy way.
Online, flexible with regards to location and time and very cost-efficient!**

Software Quality Lab is the first company to offer this accredited e-Learning option by the internationally recognized ISTQB® Certified Tester Foundation Level in German.

The online course provides an extensive overview of tasks, methods and techniques of software tests. As a participant you will get to know all important subjects of software testing and will be ideally prepared for certification.

- ✔ **Flexible training modules**
- ✔ **16+ hours online training**
- ✔ **Practice test online**

The ISTQB® Certified Tester – Foundation Level (CTFL) is the basis of the internationally recognized, standardized training program for training and further training as a certified tester.

Your Benefit

- ✔ **Flexible with Regards to Time**
You don't have much time for training on the job? Via the short units that only take a few minutes, you can use even small time slots.
- ✔ **Independent with Regards to Location**
You travel a lot? Via the appropriate App you can download the entire course onto your tablet and smartphone and study on the go!
- ✔ **Individual Learning Speed**
Several consecutive hours or one hour per day – individual studying.
- ✔ **Permanent Availability and Optimum Concentration**
When do you find it easiest to study? The course is accessible any time of day.
- ✔ **Repeatability as Desired**
You can repeat all units of the course as you wish.
- ✔ **Optimum Value for Money**
Unrivalled, cheap course fees and no travel or accommodation costs!
